---

As a passionate Bachelor of Computer Applications (BCA) student with a deep and growing interest in technology and software development, I am eager to apply my coding skills, creativity, and curiosity to real-world projects. I'm especially focused on building a successful career in the tech industry, where I can contribute meaningfully to innovative teams and solutions.

## PROJECTS

### CALCULATOR :

This project is a responsive and visually appealing Calculator App developed using HTML, CSS, and JavaScript — all within a single HTML file. It mimics the look and functionality of a basic calculator while featuring a modern, stylish user interface and a vibrant gradient background.

### Digital Portfolio:

Designed and deployed an interactive portfolio site optimized for both desktop and mobile, reflecting a strong command of front-end technologies and creative design principles.

Link:

### QUIZ APP:

This project is a fully interactive and responsive Quiz App built using HTML, CSS, and JavaScript — all in a single file. It presents users with a series of multiple-choice questions and provides instant feedback and a final results summary.

---
